FOR IMMEDIATE RELEASE

CoFlex® AFD (Absorbent Foam Dressing) All-in-One Emergency Bandage Introduced

New Foam Pad and Cohesive Bandage System is Quick, Easy and Cost Effective

Salisbury, MA – Andover Healthcare, Inc. announces the introduction of CoFlex® AFD, an all-in-one foam pad dressing and cohesive bandage.

Latex-free CoFlex AFD is a cost-effective bandage system with a variety of applications and uses in the emergency care market. A highly absorbent foam pad is attached to soft, quick-stick CoFlex® LF² for quick and easy application. CoFlex AFD sticks to itself without clips or fasteners, while providing controlled compression. Between the soft, cellular foam LF² layer and the absorbent foam pad is a waterproof film layer that prevents leakage, drying out and contamination. Applications and uses for CoFlex AFD include the treatment of traumatic wounds and lacerations.

CoFlex AFD is available in tan in sizes 2" x 2.5 yards, 4" x 2.5 yards and 4" x 7.5 yards. It is also available sterile.

For electronic pictures, a free sample or for more information on CoFlex AFD, please call 800.432.6686 or email mdube@andoverhealthcare.com

U.S. Patent Nos. 5.762.623 & 6.156.424
Patent Pending U.S. Patent No. 6.566.576 Dicon Technologies

About Andover Healthcare, Inc.

A leading manufacturer of bandages and tapes for more than 30 years, Andover supplies the healthcare industry with high quality products made in the USA. Founded in 1976, Andover is committed to new and innovative technology and distributes its patented products around the world. Andover was first to develop a truly cohesive latex-free bandage and first to offer cohesive bandages with controlled compression. Additionally, Andover was first to introduce colors, first to offer a color pack and is the exclusive manufacturer of latex-free prints.
