FOR IMMEDIATE RELEASE

NO CHEW PetFlex® bandage is here!

Salisbury, MA (November 14, 2007) – Andover Healthcare, Inc. is excited to announce bitter-taste **“NO CHEW” PetFlex**, the newest in our exclusive line of printed cohesive bandages. While completely safe to use, the bitter taste of NO CHEW keeps animals from biting, tearing and chewing the bandage. NO CHEW PetFlex is available in 2” and 4” sizes.

PetFlex, with patented EasyTear® technology, is twice as strong as other cohesive bandages. Application is quick and easy – no scissors are required. Sweat and water resistant, PetFlex is durable and will not constrict over time. Andover’s exclusive line of PetFlex printed bandages includes HeartPack, PawPack, PetPack and Smiley Pack available in 2”, 3” and 4” sizes. PetFlex is also available in 13 solid colors in sizes 1” – 4”.

For a free sample or for more information, please call 800.432.6686.
