FOR IMMEDIATE RELEASE

NO CHEW PowerFlex® bandage is here!

Salisbury, MA (November 14, 2007) – Andover Healthcare, Inc. is excited to announce bitter-taste **“NO CHEW” PowerFlex**, the newest in our exclusive line of printed cohesive bandages. While completely safe to use, the bitter taste of NO CHEW keeps horses from biting, tearing and chewing the bandage. NO CHEW PowerFlex is available in 4” size.

PowerFlex is the strongest self-adhering bandage on the market today, providing durability and support. It’s patented technology delivers 23 lbs. tensile strength, which is over two times stronger than other cohesive bandages. PowerFlex is hand-tear so application is quick and easy – no scissors are required. Sweat and water resistant, PowerFlex is durable and will not constrict over time. Andover’s exclusive line of PowerFlex printed bandages includes HeartPack and PrintPack. PowerFlex is also available in a variety of colors in 4”.

For a free sample or for more information, please call 800.432.6686.
